# ARCONAS commitment

---

**our vision** To be the world's authority in furniture for public spaces.

**our mission** Arconas defines what high design and high performance are all about. We build public seating that is elegant, comfortable and durable. And we build it with a commitment to excellence and environmental stewardship.

**our values** We respect, appreciate and value everyone.  
We maintain a strong tradition of innovation.

---

Arconas has practiced environmentally responsible operations since we began manufacturing in 1972.

All of our public seating lines meet the requirements of the ANSI/BIFMA Emissions Standards X7.1.2011. Our beam-based products are low VOC and do not contribute to poor indoor air quality.

The MDF we use is made from recycled/recovered wood fibers rather than using new wood. We also have available a formaldehyde-free MDF option. Many of our upholstery choices are made of recycled fibers. When new wood is used in our table tops, Forest Stewardship Council (FSC) certified wood options are available.

**Arconas and the environment** Arconas is fully committed to reduce waste, reuse materials and recycle wherever possible to minimize landfill contributions.

# terms of sale

---

Unless otherwise agreed to in writing between Arconas Corporation ("Arconas") and the recipient of Arconas' quotation (the "Customer") for the sale of products (the "Products") the following terms: (a) are part of Arconas' quotation for the sale of Products and acceptance by Arconas of any resulting order from the Customer (the "Order"); (b) shall become the exclusive and binding agreement between Arconas and the Customer with respect to the Order (the "Agreement"); and (c) shall apply to any purchase order issued by the Customer in connection with an Order, regardless of whether these terms are expressly referenced in that purchase order. No term set forth in any of the Customer's form of solicitation, purchase order, or contract shall become part of the Agreement or otherwise become binding on Arconas unless expressly agreed to in writing by Arconas.

## standard terms of sale

## change orders

Substitutions, deletions, additions or other changes to an Order may not be made by a Customer without the written approval of Arconas. A \$500 change fee will apply to all confirmed orders once they have been acknowledged by Arconas.

---

The purchase price for the Products as described in Arconas' quotation is F.O.B. Arconas' factory (the "Purchase Price"). Payment terms shall be as described in Arconas' quotation.

If any undisputed amount payable by the Customer under this Agreement is not paid when due, Arconas may assess and, if so assessed, the Customer shall pay a late charge at the rate of twelve percent (12%) of the outstanding amount (or at highest rate permitted by law, whichever is lower), per annum, pro rated on a daily basis. If an invoiced item is disputed, the Customer must give Arconas written notice of such dispute with full particulars thereof within thirty (30) days after the Customer's receipt of the applicable invoice. If the Customer disputes an invoiced item and such invoiced item is upheld in Arconas' favour, then such late payment charge provided for herein shall apply to the time period starting ten (10) days from the date on which the dispute is resolved. If the invoice contains an error, the Customer shall notify Arconas of such error and late charges shall apply thirty (30) days after the Customer's receipt of a corrected invoice.

Unless expressly provided for in Arconas' quotation and the Order, the Purchase Price does not include any applicable taxes, duties or other assessments that are applicable to the Order. The Customer shall pay any applicable taxes, duties or other assessments of a governmental authority and related interest and penalties relating to the Order (excluding taxes on Arconas' income). The Customer shall forthwith provide Arconas with copies of any documents which are reasonably requested by Arconas to evidence the remittance of any taxes, duties or other assessments relating to the self-assessment and remittance of taxes, duties or other assessments paid by the Customer relating to an Order. The Customer shall indemnify and save Arconas and Arconas' directors harmless from any taxes, duties, assessments, penalties, interest or other amounts which may be payable by or assessed against Arconas or its directors as a result of or in connection with the Customer's failure to pay in full when due all taxes, duties or other assessments relating to an Order.

## prices, payment and taxes

---

A Customer may not cancel any order without Arconas' approval and then only upon payment of the applicable cancellation charges set forth herein. The effective date of any approved cancellation shall be the date that Arconas receives notice from the Customer of its request to cancel an order (the "Cancellation Date"). Cancellation charges shall be assessed as follows: (i) for orders scheduled to ship within ten (10) days of the Cancellation Date, cancellation charges shall be one hundred percent (100%) of the Purchase Price; (ii) for shipments scheduled beyond ten (10) days from the Cancellation Date, cancellation charges shall be fifty percent (50%) of the Purchase Price. Arconas is under no obligation to accept any order cancellation and may refuse any Customer request for cancellation in Arconas' sole discretion. In the event of an approved cancellation, Arconas shall have the right to retain any funds paid in the form of a progress or deposit payment, as applicable, towards satisfaction of a cancellation charge payable hereunder.

## cancellation

Upon the occurrence of an Event of Default, in addition to any other remedies available to Arconas under this Agreement or at law, Arconas shall have the right to terminate this Agreement and retain any funds paid in the form of a progress or deposit payment, as applicable, towards satisfaction of any expenses, costs, damages or other liabilities incurred by Arconas related to the Event of Default.

---

California technical bulletin 133 is a flammability test procedure for seating furniture for use in public occupancies. The "all components" test requires that a product be tested in the finished form, in which it will be used within an installation. The code requires that a product "does not support combustion."

Arconas is able to alter our standard foam to pass CAL133. Call Customer Service for applicable products and pricing.

## CAL 133

NOTE: When product is required to pass CAL133 insure that the fabric selected will also be able to pass this test.

power

inPower™ flex

**ARCONAS**

inPower™ flex provides power for the most common personal electronic devices such as laptop computers, DVD players, PDAs, MP3 Players, PSPs, digital cameras, etc.

This unique power source consists of a module with dual receptacles for **120 VAC** and two **5 VDC USB ports**. The receptacles can be connected in series to power many modules from a single source. Modules can be mounted on linear units and back-to-back units, under intermediate or connecting tables and under cluster tabletops. Special brackets are provided for each specific application.

The inPower™ flex system is designed to minimize tripping of the building circuit breakers. This will minimize the need to access the electrical closets when an overload occurs.

**InPower units are available for North America, Europe (U.K.), India and Universal.**

Each module includes a circuit breaker to limit the current that can be drawn by a user to approximately 600 watts. This prevents the use of high current devices (hair dryers, travel irons, vacuums, etc.), while allowing the use of all consumer electronics. When a high current device is used, only the one receptacle module shuts down, and can be easily reset by resetting the circuit breaker. Modules also feature tamper resistant electrical receptacles.

**overview**

---

**power capacity**

- 120 VAC 12 A for daisy chained system
  - 120 VAC 5A maximum for each module
  - 5 VDC 2100 mA maximum for each USB receptacle
- 

**daisy chain**

- Daisy chains are used to connect one unit to another from a single wall receptacle.
  - Up to 5 power modules can be connected in a series.
  - Maximum 32 feet of jumper cable length in a series.
- 

**protection**

- Inlet power daisy chain limit - re-settable breaker with fault indication
    - Daisy chain 12 Amp max
    - Module limit - re-settable breaker 5 Amps
  - GFI with test and reset buttons and fail indicator light
  - 5 VDC over-current protection 2100mA on USB
- 

**warranty**

Arconas warrants inPower™ Flex components against defects in parts and workmanship as for a period of 1 year from the date of the initial installation. The inPower™ Flex components must be properly installed and maintained in a dry indoor location and used for their intended purposes.
